

# ACHIEVEMENT & GROWTH

## MAP Scores - Measuring Academic Performance

Students participate in NWEA - MAP testing three times a year and the results are used by educators as an indicator of academic growth and future progress. MAP assessment reports also help to inform instructional decisions.

This school year's 2023-2024 MAP testing results show OLC grades 1-8 scored higher than students across the country taking the annual MAP tests.

### MATH

75% of classes (1st-8th) scored above the diocesan and national averages

80% of classes (1st-8th) scored above the diocesan and national averages

### LANGUAGE ARTS

### SCIENCE

100% of grades 6-8 scored above the diocesan and national averages

Grades 2-6 scored above diocesan and national averages on all 3 tests. (reading, language usage and math).

6th grade also scored above both in science.

100%

100% of OLC's classes scored ABOVE the national average
